

FUNDRAISING PROPOSAL

Fundraising for School Development in Thiess/Kebemer Senegal

✍ JAN - MAR 2026

✍ MAFAATHUL
BISHRI SCHOOL

An Initiative by *PROJECT IQRA*

BACKGROUND

In remote areas such as the small village of Ngen Sy in Kébémér, Senegal, Islamic education provides a meaningful refuge from the distractions of urban life, nurturing spiritual growth, discipline, and a strong connection to the Qur'an. However, these learning environments face serious challenges, including limited resources, inadequate infrastructure, and lack of access to basic sustainable needs.

Project Iqra was established to respond to these challenges. Guided by the prophetic call to seek knowledge, the project mobilizes the support of the Ummah of the Prophet Muhammad ﷺ to strengthen Islamic education in underserved communities and help ensure that access to quality, sustainable learning is not limited by geography.

PURPOSE AND OBJECTIVES

- Provide a decent housing facility to board students
- Build a water well in the remote city of Ngen Sy, Kébémér in Senegal
- Purchase a vehicle to students transport between school and residency, as well to competitions
- Hire staff and two additional teachers for 100+ students

EXPECTED IMPACT

01

Increased access to *al-ilmu an-naafi'*, the holy sciences led by Islamic scholars, such as hafiz and scholar **Ya'khoub Sidiya**, is crucial for authentic guidance and the preservation of *al Quran al Kareem*.

02

Improved conditions of the school environment will develop the children's ability to focus and will establish a sense of order and foundation for the educators.

03

Access to basic needs like water and transportation increases the standard of living to a level that is healthy and more decent, because healthy, well-educated children open up opportunities to change their fate and contribute to social development. ⁽⁰⁷⁾
